

SASE Cost-Savings Template

Get started in determining the ROI of a SASE architecture

Determining the total cost of transforming your organization's network infrastructure can be a daunting task. We're here to help you figure out the costs of switching and consider tactics you may not have thought about before.

Cost items	Managed	Unmanaged
Connectivity (Annual)		
Annual cost for MPLS	\$	\$
Annual cost for ISP connection (Broadband or DIA)	\$	\$
Line Operations Service (per line cost)	\$	\$
Generic Professional Services (Annual)		
Professional Services - Technical Expertise	Included	\$
Network design	Included	\$
Configuration	Included	\$
Deployment	Included	\$
Service/Technology Evolution	Included	\$
Continuous Network Project Support	Included	\$
Operations (Annual)		
24x7 Network Operations Center	Included	\$
Incident Management	Included	\$
Change Management	Included	\$
Upgrades/Patching	Included	\$
SD-WAN (Annual)		
SD-WAN Managed Service (Enterprise+)	\$	N/A
Encryption and WAN Routing	Included	\$
Application Visibility	Included	\$
Bandwidth Control/Application Prioritization	Included	\$
Path Selection/Dynamic Routing	Included	\$
Application Optimization/Acceleration	Included	\$
Network Security (Annual)		
Firewall	Included	\$
DNS Filter	Included	\$
Secure Web Gateway (Web Proxy)	Included	\$
Unified Threat Protection	Included	\$
Advanced Threat Protection	\$	\$
Network Detection and Response (NDR)	Included	\$
Endpoint Detection and Response	\$	\$
Cloud Access Security Broker (CASB)	\$	\$
Secure Email Gateway	\$	\$
Mobile Entry Point/Remote Access/VPN	\$	\$
Cloud Sandbox	\$	\$
Grand Total	\$	\$

Open Systems is a secure access service edge (SASE) pioneer enabling enterprises to scale with managed, cloud-native, secure connections anywhere. Open Systems unifies networking and security to deliver Secure SD-WAN and MDR services that future-proof your business.
